

Leaving my school

We all go through many changes in our lives - some are exciting, others are sad, and some can seem a bit scary. But the good thing is that we are usually not alone - lots of people, including friends and family, are often feeling the same as us. The hardest thing is saying goodbye to something that we know we are going to miss.

On your own or in pairs, fill in the speech bubbles below, writing down four thoughts that you have about leaving your school. These can be things that you are looking forward to leaving behind or things that you will miss when you leave

Share these thoughts as a whole class and discuss what you have written.
