

# POSTER; GUARDIANS OF THE WEB

**Read the poem included in this resource pack called 'Guardians of the Web'.**

Now choose just one or two lines from the poem that are your favourite- this could be a line that shows what you have learnt most about online safety, or one that you think others will understand best.

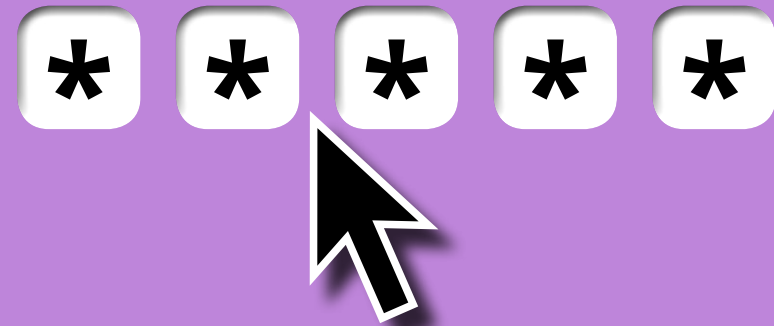

You are now going to create a poster to be displayed in your school which teaches other students, teachers and visitors about what cyber safety is and why it is so important to act safely, respectfully and responsibly. You will need to include:

- Your chosen line from the poem 'Guardians of the Web'
- A picture to accompany your chosen line

Think about what colours to include, as well as the use of different materials to help make your poster 'eye catching' and stand out. You could use pencils, pens, paint, tissue paper, fabric- you can be as creative as you like!

## INTERNET SAFETY

### PASSWORDS AND PRIVACY SETTINGS

Passwords and privacy settings, are a great way of making sure, that only those we trust and know can view our pictures and more
