

SAFER INTERNET DAY TUESDAY 7TH FEBRUARY

Children and young people can help to create a better internet by being kind and respectful to others online, by protecting their online reputations (and those of others), and by seeking out positive opportunities to create, engage and share online. They can help to respond to the negative by being 'helpful bystanders' by supporting peers if they encounter issues online, taking a stand against cyberbullying, and reporting any inappropriate or illegal content they find.

“As always, the friendly and pro-active Bigfoot team gave excellent positive feedback to staff and pupils, whilst enabling pupils to receive strong cyber safety and anti bullying messages in an easily-digestible form.”

Nic Mehew, North Ealing Primary School

BIGFOOT
ARTS EDUCATION

PERFORMANCE: CAUGHT IN THE NET - KS2

The name is Tina, Tina Tablet; a trusted and reliable homework companion for Year 5. I may not look much to you, but I can be pretty lethal if placed in the wrong hands...

In an age where text talk, 'facebook', 'instagram' and 'twitter' are second nature to many of us, we need to be even more aware about how the technology we give our young children access to impacts their safety. Bigfoot's innovative play 'Caught in the Net' investigates what cyber bullying is, as well as raises awareness about the risks of using the internet in order to explore what students can do to maintain positive relationships at school, at home, and online.

£450 PLUS VAT, INCLUDING A 45 MINUTE INTERACTIVE PERFORMANCE

CYBER SAFETY - KS2

Bigfoot's 'Cyber Safe' workshops encourage students to consider the speed at which we now communicate by phone and internet, along with the implications this can have at home, at school and in the wider community.

By participating in a variety of engaging activities, students will explore what cyber bullying is, as well as develop a greater awareness about the risks of using the internet due to hackers, trolls and catfish. Finally they will work together in groups to investigate what they can do to actively keep themselves and their peers safe online.

£295 PLUS VAT, INCLUDING UP TO 5 X 1 HOUR WORKSHOPS

Why not book both programmes for just **£625 plus VAT, saving you £120**. Please note we will only be able to deliver 4 x 'Cyber Safety' workshops post 'Caught in the Net' performance.

“ Relevant and compelling content delivered in an accessible way to junior aged children. ” Kathryn Dray, Stamford Green Primary School
