

SAFER INTERNET DAY

TUESDAY 11TH FEBRUARY 2020

Bigfoot are proud to support the UK Safer Internet Centre in this year's Safer Internet Day, which this year will be celebrated globally with the theme 'Together for a Better Internet'. Our range of assembly and workshop programmes enable children, young people and their families to work together to explore being kind and respectful to others online, how to protect their online presence and seek out positive opportunities to create, engage and share online.

What schools said about our programmes in 2019:

“All of the main issues surrounding online safety were delivered in an engaging way. The children loved the characters and couldn't wait to give them advice to help solve their problems. The drama workshops really helped the children delve deeper into the ideas delivered in the assembly. A great follow up.”

Gordonbrock Primary School

“The facilitator and workshop were engaging and exciting for my Year 1 children. The facilitators behaviour management strategies meant that the children were concentrating on their learning and the activities linked well to the objectives set. I also will be able to use them back in the classroom to further support my teaching of computing and E-safety. I would highly recommend this programme for other Year 1 classes!”

Jenny Hammond Primary School

“If you are looking for an engaging, fun, educational workshops for your pupils then this is the programme for you. Our children have learnt some strong meaningful messages regarding cyber safety which we believe we stick in their minds for a long time.”

Redriff Primary School

ASSEMBLY AND WORKSHOPS: BE A SMART-Y - KS2

“My name is Up. On. A. Wall. Soon it will be up in lights. The Guide to Internet Safety. Smart-Y. I could be like Bieber and have my own followers, everyone will want to be a Smart-Y...”

'Be a Smart-Y' explores online safety through a light hearted, inclusive approach in which children are actively encouraged to reflect on their own online behaviour as well as that of others. Smart-Y is a shy but clever sweet tube who, upon learning that his name is actually a mnemonic for e-safety, is compelled to help Gus, the superhero spider who cruises the school's 'world wide web' to ensure students are safe online. Together they help students Sam and Dani navigate their way through the complex issues of privacy settings and passwords, knowing when to report any suspicious content, how to make the right decisions when sharing information, the consequences of cyber bullying and understanding where and how to get help and support. An information packed interactive assembly.

ASSEMBLY AND WORKSHOPS: CAUGHT IN THE NET - KS2

“This time it's different though. I mean at least Danielle said to my face what she thought of me. Whoever is doing this, is doing it without revealing themselves and this time I can't even get away from it when I go home....”

Bigfoot's innovative assembly performance 'Caught in the Net' explores cyber bullying and its effects through the story of George and Danielle and their changing relationship. We see how their online behaviour has disastrous repercussions, both at home and at school. Adding light relief to the story are School Cool Mouse and Tina Tablet, through whom we learn about both the positive and negative impact of the internet and social networking as well as the dangers of talking to strangers online. A clever and captivating storytelling performance which children and teachers will find both entertaining and informative!

CYBER SAFETY WORKSHOPS - KS2

Bigfoot's 'Cyber Safety' workshops encourage children to consider how we use the internet and smart technology, exploring the implications on our safety and well being, to ourselves and others.

Through a variety of drama and communication games and exercises, students will explore how to stay safe online, how we share information and connect with others safely, as well as the consequences of negative behaviour. A brilliantly positive, fun and informative experience for students to safely explore a serious issue facing all young people today.

CYBER BULLYING WORKSHOPS - KS2

Bigfoot's 'Cyber Bullying' workshops encourage students to consider how we communicate online, along with the implications this can have at home, at school and in the wider community.

This workshop focuses specifically on the causes, effects and consequences of negative behaviour online. Students will be encouraged, through a range of role play and storytelling activities, to identify the differences between 'cyber bullying' and 'face to face' bullying and to understand the devastating effects a simple action online can have on both the victim and the perpetrator. A fast paced, thought provoking, creative opportunity for students to explore what we can do together to ensure that we use the internet responsibly, safely and positively.

THE GAMES MASTER - KS2

You may know how to play on screen, but can you and your peers outwit the Games Master to become the ultimate champions of your very own, larger than life, computer game? Team work, cooperation, problem solving and creative thinking are the 'power tools' you and your squad will need to equip yourselves with in order to succeed. For in this magical and wondrous place lurks creatures and pitfalls, trolls and viruses, scams and catfish, all of which must be overcome in order to reach the ultimate level; to compete in the 'Elite Player' battle.

'The Games Master' fully harnesses our belief that at the heart of all high quality learning experiences is the opportunity for children to actively engage with people, places and situations. By encouraging students to become part of the story, we can help them to understand more intricately about themselves and the world in which they live. This is a brilliantly positive, fun and informative experience that will not only have your classes buzzing but will serve as a sharp reminder that we are ALL responsible for our online safety.

Bigfoot are proud to work in partnership with the charity Kidscape as we work towards our common goal of supporting young people, parents and schools in coping with the challenges of Anti-Bullying and Internet Safety issues.

Bigfoot are delighted to donate £10 of every Safer Internet booking to further strengthen Kidscape's incredible work and also to highlight their brilliant workshops for schools and parents / carers:

Online Safety and Cyberbullying Awareness for Staff (2 hours)

Online Safety and Cyberbullying Awareness for Parents and Carers (1.5 hours)

BOO GETS CYBER SMART (ASSEMBLY AND WORKSHOPS) – EYFS & KS1

**NEW
FOR 2020 -
INTRODUCTORY
ASSEMBLY
AND EYFS
WORKSHOPS**

Boo, the Bigfoot Bunny, is so excited to play games, watch videos and find out information on the new family tablet. But Boo soon finds it all a bit overwhelming – 'Should I click on the message that keeps popping up?' How can Boo find the right video to watch and what about the people that are being unkind to each other on Boo's favourite game? Can you help Boo make the right decisions when using the internet?

Due to popular demand this year we are thrilled to be including an introductory 15 minute interactive assembly, as well as a specially designed EYFS workshops.

The perfect opportunity to introduce younger students to simple internet safety messages
