

TRANSITION

THE BIG 'TRANSITION' EXPERIENCE; MOVING ON UP!

Everyone knows that with all new beginnings comes **BIG** change! Bigfoot has created an inspiring new play that can help students confront, discuss and explore the emotional, psychological and practical implications involved with 'moving on' in a safe and friendly environment.

This 60 minute interactive performance is perfect for larger groups of students to watch together, especially on induction days, or as a post SATS treat. Based on real life experiences, and delivered in part by the filmed testimony of Year 7 students, 'Moving On Up' delves into the lives and minds of young people as they make the move from Primary to Secondary school. Providing a humorous insight into the various concerns associated with moving on, our play aims to reassure students, alleviate any fears and anxieties they may have and, moreover, explore coping strategies alongside the many positive elements that are part of the transition experience.

Objectives:

By participating in this engaging interactive performance students will:

- feel reassured about the process of transitioning from Primary to Secondary school so that they are able to cope with the challenges in a timely and positive way.
- explore and implement possible solutions for dealing with the main concerns and situations they and their peers may encounter.
- be given the facts surrounding transition in order to dispel common myths and explore the many benefits of moving schools.
- understand that young people can be influenced by group behaviour and look at ways to navigate peer pressure during this time of change.
