WHILST PERFORMING THE CURRICULUM...

Bigfoot believes that at the heart of all high quality learning experiences is the opportunity for children to actively engage with people, places and situations. Our 'Bespoke Buzz' days encourage students to become part of the story, helping them to understand more intricately about themselves and the world in which they live.

By engagement through drama, children are able to retain and process information in a completely different way in order to develop a deeper understanding of the subject matter. Our Bigfooters can not only help reach those children who are less able to focus and concentrate in normal classroom settings, but they enable all children to thrive and achieve through active participation.

Some schools use us to launch a curriculum topic at the start of term in order to get their children 'buzzed up' and ready to learn. Others contact us to book one off days as a special treat to say a big 'well done- go and have some creative fun.' The bottom line is, you can book *Bespoke Buzz* day any time throughout the year...

Previous *Bespoke Buzz* days have included workshops for Maths Week, Holocaust Memorial Day, Diwali, Refugee Week and Rights Respecting Schools. We have designed workshops to explore oracy and confidence, team building and creative writing, arranged visits from Father Christmas, a Roman soldier and a Jedi Knight. We have even organised projects at London Zoo and the Tower of London! Anything is possible; just tell us what you want and we will be happy to research, plan and deliver a day especially for your students.
